m C. Sanderson, Esq., Solicitor to the Government of India, To Lieut. E. H. H. Collen, Assis-retary to the Government of India, Military Department,—(No. 482, dated Fort William, the 1875.)

.th reference to your letter No. 635 of the 29th ultimo, I have the honor to forward you here-copy of the Officiating Advocate-General's opinion on the subject therein referred to.

.ll the papers which accompanied your letter are herewith returned.

OPINION.

The 99th Section of the Mutiny Act amongst other things provides as follows.—That it shall be ert for any Civil Court, &c. &c., upon finding or awarding any debt or damage either to avoid ion thereof generally or to direct specially that the whole or any part thereof be stopped and paid e plaintiff out of any part not exceeding one-half of any pay or allowance or out of any other money which may be respectively coming to defendant in the current or any future month or as or to direct the same to be paid by instalments. Under this Section an order may be made by Court directing the regimental paymaster to stop any portion of a Military officer's pay or allow-not exceeding one half coming to him, &c. As the pay mentioned in the case was passed on the 1st e month and not issued or drawn out, I consider such pay to be pay coming to the particular officer ndant in the civil suit) in the current month, and consequently the half or other portion of it not ding one-half directed by an order of the Civil Court dated the second of the month may be stop-

The regimental paymaster should be careful to see that the attachment is not one under the provi-, of Act 8 of 1859, but a direction to him in the terms of Section 99 of the Mutiny Act, and I think as a precautionary measure whenever the regimental paymaster makes any deduction from an er's salary under an order of a Civil Court passed in pursuance of the 99th Section of the Mutiny , he should report the same to the Judge of the Civil Court issuing the order.

RESOLUTION.—Questions having recently arisen as to the extent to which officers in the service of Government are permitted to connect themselves with the Press, the Governor General in Council thinks it desirable that the existing orders on the subject should be clearly understood:—

I.—No officer in the service of Government is permitted, without the previous sanction in writing of the Government under which he immediately serves, to become the proprietor, either in whole or in part, of any newspaper or periodical publication, or to edit or manage any such newspaper or publication. Such sanction will only be given in the case of newspapers or publications mainly devoted to the discussion of topics not of a political character, such for instance as art, science or literature. The sanction will be liable to be withdrawn at the discretion of the Government.

II.—Officers in the service of Government are not prohibited from contributing to the public Press; but their position makes it incumbent upon them to confine themselves within the limits of temperate and reasonable discussion, and they are prohibited from making public without the previous sanction of Government any documents, papers, or information of which they may become possessed in their official capacity. These rules have been hitherto in most cases honorably observed. In case of a departure from them, or if the Government should consider the connection of any officer with the Press to be contrary to the public interests, his liberty to contribute will be withdrawn.

III.—The Government of India will decide, in case of doubt, whether any engagements of officers with the Press are consistent with the discharge of their duties to the Government.

IV.—Nothing in this Resolution is intended to relax the provisions of any regulations on this subject which now apply to the Army.

ORDER.—Ordered, that this Resolution be published in the *Gazette of India*, and circulated to local Governments and Administrations for information and guidance.

The question whether Judicial Officers of one Province should be permitted to accept remuneration for executing commissions issued by Courts of other Provinces has been submitted to the Government of India. After considering the opinions received from certain Local Governments and from the High Court, Calcutta, the Government of India concur with the majority of these opinions and with the Lieu-

No. 217. *The 6th September* 1875.

The Supreme Government having sanctioned the commencement of the Topographical Survey of the Mysore Province, the Officiating Chief Commissioner directs that the following instructions shall be issued for the information and guidance of all classes of the people.

2. The object of the Revenue Survey in Mysore, which has been for some years in progress, has been to survey and assess all holdings from which the State derives or may hereafter derive its land revenue. On the other hand, the Topographical Survey has no concern with the survey and assessment of fields, nor with the demarcation of village boundaries, when these boundaries have been already determined by the Revenue Survey Department. Its object is to delineate the features of the country, such as the position of villages, hills, rivers, banks and reservoirs, &c.

3. The Officiating Chief Commissioner further desires it to be distinctly understood that while the local Officers and villagers will be required to give all reasonable aid to Officers of the Topographical Survey, no gratuitous labor will be exacted, and those Officers hold themselves responsible that all aid afforded, whether in labor or materials, will be duly paid for.

4. The following are the particulars in which aid will be required.

Stations.—The "Stations" of the Topographical Survey are built on hills, ridges, tank bunds and other sites affording a commanding view. The roofs of buildings and temples will, if access to them be unobjectionable, be selected for signal stations. These "Stations" when built will be placed under the immediate charge of the Patel and other Government servants of the village in which they are respectively situated, and they will be held responsible that the marks used for fixing the "Stations" are not tampered with.

Materials, labor, carriage and supplies.—The villagers will be expected, on adequate remuneration, to supply the Officers of the Survey with such materials as they may require to build the stations, so far as they may be obtainable in villages.

The labor of coolies to supplement the Survey Establishment will at times be required in clearing sites, and in carrying instruments and signalling staves wherever this is indispensable. Supplies consisting of the ordinary necessaries of life, will be supplied to the Officers and employés of the Survey, on payment and after sufficient notice.

Information.—The Patels and other village servants are enjoined to comply promptly with all summons made to them by the Officer of the Survey, and to furnish all required information.

5. A Survey Party consisting of Captain Strahan, R. E., Deputy Superintendent, with three Assistants, will commence operations on or after the 1st October next in the Nundydroog Division, and another Party under Captain McCullagh, R. E., Assistant Superintendent, with three other Assistants, will break ground in the Nagar Division.

Whereas certain additions have to be made to the Notification No. 53, published at pages 225 and 230 of *Mysore Gazette*, dated 14th and 21st instant, the same is re-published with the necessary alterations printed in italics.

It is hereby notified under Section 4 of the Land Acquisition Act X of 1870, that the land comprised within the limits of the Catchment Channel lines hereunder delineated and which have been nicked out on the grounds, together with a strip of 40 feet below them all round, situated in the villages of Ranganathapura, Marnballi, Nagnatpur, Vaiyali Kaval, Geddalballi, Gangenahalli, *Mallainahalli, Madirilinganhalli, Ketmarnahalli, Muniraddipalya, Yesvantapura, Mattikere and Yadagaipalya*, are required for public purposes, *i. e.* for the Bangalore Water-supply.

(1.) *South East Channel Line*, beginning at north-west side of Guttahalli, skirting the lower (west) side of Messrs. Carter and Garrett's lands, running across the Bellary road near the 2nd mile-stone where the road splits into two, one going to Túmkúr, and the other to Nundydroog, and along south side of the Túmkúr road as nicked out to Ranganathapura, *with an extension passing to west of the house known as General Dobbs' Bungalow, crossing the Bellary road below Mr. Rice's compound and through the north-west corner thereof and passing along the west side of the Rifle Butts towards the High ground.*

(2.) *South West Channel Line*, from Ranganathapura along the lower side of the channel excavated, crossing the Pete Sunedar Chatram road near 3rd mile-stone, then running below the Nazerjunge tank, and then nearly parallel to the just mentioned road to near the Esopankatte bridge where re-crossing the road and running along the east side of it, crosses the Túmkúr road below 4th mile-stone to the south side of Subbappapalyam.

(3.) *North West Channel Line*, runs from the south-west side of Subbappapallyam, along the east side of Javanhalli, south of Mattikere and through a portion of the lands belonging to Yedanhalli village, by the west of the Madirilinganhalli tank, to near the mango tope, on the railway-feeder road.

(4.) *North East Channel Line* begins near the tope last mentioned and on to west and north of Madirilinganhalli, then round the rocks on the border of Geddalhalli, through the lands of Gangenahalli, crossing the Nundydroog road near 3 miles, 2 furlongs, then on to the south of a garden near the cross road to Hebbal, thence south-west of the temple adjoining, and by the west side of Mantaraddipalyam to near a road-culvert west of Mariyanna Chatram, where, crossing the road and going down along the west bank of the Sampangi feeder to east of Guttahalli rocks where the south-east channel line begins, *with an extension towards Hebbal round the rocky summit between Yeddanhalli and the Nundydroog road near the 4th mile stone.*

In addition to the lands comprised within the above limits, a width of twenty feet on each side of the line which has been nicked out, for the delivery channel will also be required. The delivery channel line proceeds from the reservoir and running below and somewhat parallel to the south-east catchment channel line, crosses the Bellary road near second mile stone and goes near the house commonly known as General Dobbs' as nicked out. Beyond the end of the nick line, the channel will run under ground between the kitchen and coach house of the said Bungalow down to a stone on the east side of the Cathcart road. But this last portion will not probably be commenced within this year.

READ again—

Financial Resolution No. 2021, dated 31st March 1875, declining to grant, from the imperial revenues, a loan of Rs. 60,000 to the Tellicherry Local Fund Board for the completion of the Paria Ghat road, on the ground that, it is inconsistent with the principle which the Government of India has laid down for its own action that District Committees should borrow money from the imperial chest for ordinary and unremunerative works.

Read—

A letter from the Government of Madras, No. 1249, dated 9th June 1875, requesting for reasons stated a reconsideration of the above orders.

RESOLUTION.—The Governor General in Council considers it to be objectionable on principle that bodies in the position of District Committees should receive loans for the construction of such public works as would not be classed as extraordinary if they were constructed by the Supreme Government, because the funds administered by these bodies are partly provincial and such as prior to the decentralization scheme were provided from imperial services. A loan under these circumstances is anomalous; and unless the work be on its own merits a reproductive one, and as such able to repay the loan, it is irregular to make an advance, or in other words an increased grant for the year, to be repaid from the fixed revenues and assignments of coming years.

2. The order of 31st March last was governed by these considerations, which are hardly affected by Rule II of the Notification of October 1873, because Government in granting loans is at liberty to limit the scope of its own action; and there is need of strict limitations in the case of District Committees whose functions extend collectively over large areas. By lending these committees money to construct ordinary roads, the Government might drift into a system of carrying on public works generally with borrowed money. Accordingly the Government of Madras should not give any provisional sanction to such loans in future, and they should warn the District Boards to incur no expenditure, relying on loans, without the previous sanction of the Government of India.

3. In the case, however, of the Peria Ghat road, as the work was carried forward under the expectation that a loan would be granted, the Governor General sanctions, *as a special case*, the loan of Rs. 60,000 previously asked for.

4. The foregoing observations do not apply to "Municipalities," which properly signify corporations for the administration of cities, towns, or townships, the revenues of which are distinct from provincial and are supplemented by imperial grants.

ORDER.—Ordered that the foregoing Resolution be communicated to the Public Works Department and to the Government and Accountant General, Madras; to other Local Governments and Administrations for information; and to the Comptroller General for information and guidance.

Asstt. Secy. to the Govt. of India.

No. 217. *The 6th September* 1875.

The Supreme Government having sanctioned the commencement of the Topographical Survey of the Mysore Province, the Officiating Chief Commissioner directs that the following instructions shall be issued for the information and guidance of all classes of the people.

2. The object of the Revenue Survey in Mysore, which has been for some years in progress, has been to survey and assess all holdings from which the State derives or may hereafter derive its land revenue. On the other hand, the Topographical Survey has no concern with the survey and assessment of fields, nor with the demarcation of village boundaries, when these boundaries have been already determined by the Revenue Survey Department. Its object is to delineate the features of the country, such as the position of villages, hills, rivers, banks and reservoirs, &c.

3. The Officiating Chief Commissioner further desires it to be distinctly understood that while the local Officers and villagers will be required to give all reasonable aid to Officers of the Topographical Survey, no gratuitous labor will be exacted, and those Officers hold themselves responsible that all aid afforded, whether in labor or materials, will be duly paid for.

4. The following are the particulars in which aid will be required.

Stations.—The "Stations" of the Topographical Survey are built on hills, ridges, tank bunds and other sites affording a commanding view. The roofs of buildings and temples will, if access to them be unobjectionable, be selected for signal stations. These "Stations" when built will be placed under the immediate charge of the Patel and other Government servants of the village in which they are respectively situated, and they will be held responsible that the marks used for fixing the "Stations" are not tampered with.

Materials, labor, carriage and supplies.—The villagers will be expected, on adequate remuneration, to supply the Officers of the Survey with such materials as they may require to build the stations, so far as they may be obtainable in villages.

The labor of coolies to supplement the Survey Establishment will at times be required in clearing sites, and in carrying instruments and signalling staves wherever this is indispensable. Supplies consisting of the ordinary necessaries of life, will be supplied to the Officers and employés of the Survey, on payment and after sufficient notice.

Information.—The Patels and other village servants are enjoined to comply promptly with all summons made to them by the Officer of the Survey, and to furnish all required information.

5. A Survey Party consisting of Captain Strahan, R. E., Deputy Superintendent, with three Assistants, will commence operations on or after the 1st October next in the Nundydroog Division, and another Party under Captain McCullagh, R. E., Assistant Superintendent, with three other Assistants, will break ground in the Nagar Division.

No. 217. *The 6th September* 1875.

The Supreme Government having sanctioned the commencement of the Topographical Survey of the Mysore Province, the Officiating Chief Commissioner directs that the following instructions shall be issued for the information and guidance of all classes of the people.

2. The object of the Revenue Survey in Mysore, which has been for some years in progress, has been to survey and assess all holdings from which the State derives or may hereafter derive its land revenue. On the other hand, the Topographical Survey has no concern with the survey and assessment of fields, nor with the demarcation of village boundaries, when these boundaries have been already determined by the Revenue Survey Department. Its object is to delineate the features of the country, such as the position of villages, hills, rivers, banks and reservoirs, &c.

3. The Officiating Chief Commissioner further desires it to be distinctly understood that while the local Officers and villagers will be required to give all reasonable aid to Officers of the Topographical Survey, no gratuitous labor will be exacted, and those Officers hold themselves responsible that all aid afforded, whether in labor or materials, will be duly paid for.

4. The following are the particulars in which aid will be required.

Stations.—The "Stations" of the Topographical Survey are built on hills, ridges, tank bunds and other sites affording a commanding view. The roofs of buildings and temples will, if access to them be unobjectionable, be selected for signal stations. These "Stations" when built will be placed under the immediate charge of the Patel and other Government servants of the village in which they are respectively situated, and they will be held responsible that the marks used for fixing the "Stations" are not tampered with.

Materials, labor, carriage and supplies.—The villagers will be expected, on adequate remuneration, to supply the Officers of the Survey with such materials as they may require to build the stations, so far as they may be obtainable in villages.

The labor of coolies to supplement the Survey Establishment will at times be required in clearing sites, and in carrying instruments and signalling staves wherever this is indispensable. Supplies consisting of the ordinary necessaries of life, will be supplied to the Officers and employés of the Survey, on payment and after sufficient notice.

Information.—The Patels and other village servants are enjoined to comply promptly with all summons made to them by the Officer of the Survey, and to furnish all required information.

5. A Survey Party consisting of Captain Strahan, R. E., Deputy Superintendent, with three Assistants, will commence operations on or after the 1st October next in the Nundydroog Division, and another Party under Captain McCullagh, R. E., Assistant Superintendent, with three other Assistants, will break ground in the Nagar Division.

No. 336, dated 27th January 1875.

From—The HON'BLE F. S. CHAPMAN, Chief Secy. to the Govt. of Bombay.
To—The Secretary to the Government of India, Home Department.

Under Section 11 of Act XX of 1864, a Civil Court may appoint a Collector to take charge of a minor's landed estate. Recently this Government, on a reference made to it, decided that the moneys received by the Collector might be invested by him for the benefit of the minor, and that it need not necessarily pass through the public accounts. This is, it is believed, the usual custom throughout India. The Accountant General has now suggested that the Government of India's Resolution in the Financial Department, No. 14624 of the 10th December 1861, which directs that "all transactions to which officers of Government are, in their official character, parties, must, in future, without any reservation, be brought to account and the money deposited in the Government treasuries," renders this course improper. This Government believes that the Resolution referred to, which was meant to put a stop to the practice of keeping separate departmental funds, has never been applied to the case of minor's estates, as it

would obviously involve inconvenience and loss of interest on his money to the minor. The terms of that Resolution are, however, so wide, that it is considered desirable to bring to the Government of India's notice the orders which this Government have recently passed.

Endorsed by the Home Department, No. 210, dated 10th February 1875.

Transferred to the Financial Department for disposal, with reference to their Resolution No. 14624 of the 10th December 1861.

From R. B. CHAPMAN, Esq., Secretary to the Government of India, Financial Department, To the Chief Secretary to the Government of Bombay, No. 1872, dated 30th June 1875.

In reply to your letter to the Home Department, No. 336, dated 27th January 1875, I am directed to state that the Governor General in Council considers that a Collector should not have two purses or cash balances in his treasury, and that accordingly all money that is paid into a treasury should pass through the public accounts.

Moreover, whenever it is necessary to remove money belonging to a minor's estate from the estate treasury, it must be placed in the public treasury, and not elsewhere.

It is not, however, necessary that all collections from a minor's estate should be paid into the treasury of the Collector of the district, merely because the estate may be under the Collector's management. Money which is not paid into the Collector's treasury should not pass through the public accounts.

Copy forwarded to the Comptroller General and Accountants General, and Deputy Accountants General in independent charge for information.

ORDERED, that the above Proceedings be communicated to the several Departments of the Government of India for information and to all Local Governments and Administrations (except Bombay) for information and guidance.

RESOLUTION.—A question having been raised as to how the pay of Civil and Military Officers, employed in Mysore, Berars, &c., which is chargeable to other than the general revenues of India, should be debited when, at the expiration of two years' leave, those officers receive only subsistence allowance and English furlough pay respectively, it has been decided by Her Majesty's Secretary of State, in accordance with the recommendation of the Government of India, that these allowances shall be treated in the Home Accounts as final charges against the revenues of British India.

ORDER.—Ordered, that the foregoing Resolution be forwarded for information to the Foreign Department, the Chief Commissioner of Mysore, the Resident at Hyderabad, and the Comptroller General.

No. 237. *The 25th September* 1875.

The Offg. Chief Commissioner directs the publication of the subjoined Rules, for conducting *Post Mortem Examinations, &c.*, for the guidance of the Officers concerned.

Rules for conducting Post Mortem Examinations and for examining wounded persons.

I. The Medical Officer shall, immediately on receiving from any person, for examination, a corpse or any other substance, inquire and note down the name and residence of such person and, if the latter be a Police Officer, his number and rank, and shall, without delay, grant to such person a receipt for the corpse or other substance delivered by him. The receipt so granted shall contain a list of the articles or substances received by the Medical Officer, and the name of the person from whom they were received, and to whom the receipt is given. It shall be the duty of the Medical Officer to examine all bodies sent to him as soon as practicable after arrival.

II. In cases where the body is sent to him, the Medical Officer should note the time of its arrival, the date and hour of the *post mortem* examination, the sex and height and apparent age of the deceased, the state of the body, whether well nourished or otherwise, the existence or absence of any caste or other marks, not of recent origin, such as cicatrices, deformities, and the like; and whether the marks upon it correspond with those in the Police or other report.

III. In cases where he has been taken to the place where the body lies, besides the above, he should note the place and nature of the soil (if out in the open country) where he found the body, also its position and the state of the clothes, if any. He should also note, in cases of death from violence, the position of the body in reference to surrounding objects, such as sharp stones and the like, contact with which, it may be alleged, has produced the injury, also whether any blood-stains are visible on such objects or anywhere near the corpse, and whether any weapons are lying near it. In cases of suspected death from poisoning, he should note whether any appearance, as if of vomited matters, &c., is present in the neighbourhood of the body.

IV. In every case he should describe the condition in which he found the body, noting the degree of coldness, warmth, rigidity and putrefaction, and the amount and nature of the clothing or covering on it.

V. Commencing at the skull and terminating at the feet, he should examine the bones to determine whether any of them are fractured or dislocated, and inspect the vertebral column throughout, also the teeth, hair, orifices of the body and general surface, and also note the state of the pupils, whether contracted or otherwise, and whether any substances are grasped in the hands.

VI. If there be any wound or contusion on the body, he should describe its position, length and breadth. He should note the depth and direction of all wounds, whether there are any cuts on the clothes corresponding to them, and examine the wound carefully for the presence of foreign bodies, preserving such as are found. He should also state whether, in his opinion, the wound was mortal, giving his reasons for such opinion, and he should be specially careful to examine the neck for marks of compression.

VII. He should also state his opinion as to whether the wounds, if any, could have been self inflicted, or whether they might have been the result of accident, giving reasons for his opinion.

VIII. He should carefully examine any gun, sword, blood-stained instrument, stick or stone, by which the wounds may have been inflicted, and mark such instrument so as to be able to recognize it, if asked to do so. He should also compare the weapon with the wound alleged to have been caused by it, and state whether, in his opinion, it was possible for the wound to have been produced by it.

IX. He should commence his dissection of the body by removing the top of the skull in the usual way with a saw, and note anything that may appear unusual.

X. He should then make an incision from the chin down to the pubes, so as to be able to examine the windpipe, heart, lungs, liver, stomach, spleen, kidney and intestines, also the urinary bladder, and note whether any of these organs appear diseased, and whether any wound on the outside of the body communicates with the contents of the chest or abdomen.

XI. In making his examination he should disturb, as little as possible, any organ which may communicate with an external wound, if he had reason to think that the body may be re-examined by another medical man.

XII. In the case of females, he should examine the ovaries and uterus, bearing in mind that abortion is sometimes caused by the introduction into the uterus of pointed instruments which may cause death. He should note the presence or absence of pregnancy, the probable period to which pregnancy had advanced, and examine the external generative organs for marks of violence.

XIII. In the case of infants, he should note the condition of the umbilicus and cord, if any of the latter remain. He should also remove the lungs, and try whether they sink or float in water.

XIV. In cases of suspected poisoning, he should not neglect to examine every organ of the body, and should pay special attention to the rules laid down hereunder with reference to the duties of the Chemical Examiner.

XV. He should bear in mind that death may possibly have been the result of starvation, exposure to cold or heat, smothering, drowning, lightning, strangulation, poisoning, or disease, and state whether death was due to any of these causes, giving his reasons.

XVI. He should keep all his original notes, even though he may make a fair copy of them afterwards, and should not lend them to any one to read.

XVII. In all cases, the examination of the body should be thorough and the notes of the appearances discovered should be as minute as possible.

XVIII. Full notes should also be made in cases of examination of wounded persons.

XIX. When summoned to give evidence in any case in which he has made a *post mortem* examination, or examined a wounded person, the Medical Officer should bring with him to Court, the original notes made by him at the time of conducting such examination.

XX. The notes of the examination in all cases, or a fair copy of them in the hand-writing of the Medical Officer, should be at once made in a book kept at the hospital or dispensary for the purpose, and should be signed by him.

XXI. The Medical Officer should submit, in a form of report, the results of the *post mortem* examination held by him, along with the inference or inferences deducible therefrom, to the civil authorities within one week from the date of such examination. Should he desire to be furnished with additional facts in connection with the history of the case, before pronouncing a final opinion, he must embody the expression of such reservation in his report. This rule does not alter the procedure in cases of actual or suspected poisoning, the reservation in such cases being dependent upon the submission of the report of the Chemical Examiner.

XXII A copy of every report made by the District Medical Officer under the preceding rule shall be forthwith submitted to the Civil Surgeon of the Division, who will thereupon issue such instructions, either with reference to the particular case reported, or for the future guidance of the Medical Officers, as he may think necessary.

Rules regarding the transmission of suspected substances to the Chemical Examiner, and their analysis.

I. In the transmission of suspected matters (in cases of poisoning or suspected poisoning) to the Chemical Examiner for analysis, the following rules are to be observed :—

(*a*) Three objects should be carefully attended to in the despatch of all suspected matters; the proof of identity; the impossibility of any interference during transit; and thirdly preservation from decomposition.

(*b*) Articles for analysis should be enclosed in perfectly clean glass bottles or jars, accurately corked, tied and sealed with hard wax, and by the private seal of the Surgeon or Magistrate. Bottles, &c., should be enclosed in a thick layer of cotton, and all placed in tin, soldered, and sealed. When wooden boxes must be used, these should be sealed and taped at every opening below as well as above.

(*c*) All liquid and animal matters liable to decomposition should be put up in, or mixed with the strongest spirit available; this effectually prevents decomposition, and without interfering with the subsequent analysis, obviates many serious accidents.

(*d*) A minute and detailed account of the case, symptoms, appearances on dissection, and treatment, if any, should, in every instance, be forwarded, as these afford a clue, not only to the kind or class of poison made use of, but also not unfrequently to the individual or identical poison itself.

(*e*) In cases where arsenic or any other mineral poison is suspected, and when the patient has survived for twenty-four hours or more after its exhibition, the liver should be sent, as well as the stomach and a part of the intestines, also a portion of any suspected matter, which might have been the vehicle of exhibiting the poison, as food, rice, congee-water, &c,. When any substance vomited by a patient is forwarded, it should be mentioned whether it is a portion of the first vomiting or not; the matters emitted by the first vomitings are most likely to contain portions of the poison.

II. The rules for the transmission of suspected substances, as above given, will not prevent analysis being made by Medical Officers at outstations, who may have the means of examining suspected matters, and it is desirable, on legal grounds, that local analysis should be made whenever possible.

III. When the use of a vegetable poison is suspected, it is quite competent for the Medical Officer on the spot, to do all that the Chemical Examiner can do. With this object, a portion of the suspected substance should be treated with proof spirit and a little acetic acid for 24 or 48 hours; * after applying a gentle heat, the mixture should be thrown upon a filter. The filtrate should be evaporated over a water-bath, to the consistence of an extract, and the physiological action of the extract should be tested by administering a portion of the same to a young chicken, puppy or kitten. Dilatation of the pupil following the introduction of a small quantity of the extract into the eye of the last animal, gives ground for suspecting the presence of dhatura or aconite.

* Ganja will communicate a green color to this infusion.

IV. Whenever a partial examination of a suspected substance has been made by the Medical Officer on the spot, and the substance is subsequently forwarded to the Chemical Examiner, the result of the local investigation is to be stated.

V. Police Officers, Magistrates and others should, in every case, forward suspected substances in the first instance to the District Medical Officer, and this Officer, if unable to come to a definite opinion thereon, is responsible for their transmission to the Chemical Examiner with every needful statement elucidatory of the case.

VI. Medical Officers should make known to Police Officers, Magistrates, &c., that the Chemical Examiner has no means of distinguishing the blood of human beings from that of other mammals, and that, under ordinary circumstances, medico-legal evidence as to blood stains can be given as well by District Medical Officers, as by the Chemical Examiner.

G. G. O. in the Military Department, No. 132, dated 14th September 1855, and Notifications in the Foreign Department, No. 617, dated 5th October 1855, and No. 505, dated 27th May 1862, forbidding all officers in the service of Government from entering the Burmese territories without first obtaining the sanction of the Commissioner of Pegu, and Nipalese territories, without obtaining the permission, through the Resident, of the Nipalese Durbar.

Also the office memorandum of this Department, No. 2086, dated 21st October 1865, directing that no persons should be allowed to go beyond British territory without the specific sanction of the Government of India obtained through this Department.

OBSERVATIONS.—His Excellency the Viceroy and Governor-General in Council observes that while there is a political necessity for placing restrictions upon British officers visiting countries beyond the frontier of India, such as Afghanistan, Nipal, Kashgar, and Thibet, there is no such necessity for placing restrictions on visits to Native territory within the limits of India. His Excellency in Council considers it unnecessary to place any greater restrictions upon travelling in such States than upon travelling in British territory, except to directthat when officers of Government travelling in Native States move off the main lines of road, they shall in all cases send intimation to the Political Agent or other officer through whom correspondence with the Native State is usually conducted.

RESOLUTION.—His Excellency in Council is accordingly pleased to withdraw the restrictions hitherto imposed upon officers of Government desirous of visiting Native States. Nothing in this Resolution, however, will affect the special rules prescribed for travelling in Cashmere.

As regards visiting countries situated beyond the frontiers of India, the existing orders will remain in force, and applications for permission to cross the Indian Frontier must be submitted, as heretofore, for the consideration of the Government of India in this Department.

MILITARY DEPARTMENT.

To—The Adjutant General, No. 336, *S, dated Simla, the* 15*th September* 1875.

I am directed to acknowledge your letter No. 1186 B "Medical Department," dated 28th May 1875, on the subject of the claim of European military pensioners to receive gratuitous medical attendance for themselves and families.

2. In reply, I am to state the opinion of the Right Hon'ble the Governor General in Council that the cases have been rare in the extreme where inconvenience or hardship has arisen from the absence of any specific ruling on this point. As however the question has been raised, His Excellency in Council is pleased to decide that European military pensioners requiring medical attendance for themselves or families and residing within cantonments shall receive it from the medical officer in charge of the staff.

3. In very serious illness, the pensioner may be sent into a Military hospital and his family into the Sadder dispensary, where, as is now usually the case, there is suitable accommodation for persons of that class.

4. A further communication will be made to you in respect to the case of European pensioners residing outside the cantonment limits,—a point which must be decided in the Civil Department.

Letter from Registrar, High Court, Calcutta, No. 1556, dated 8th July 1875.

RESOLUTION.—The Governor General in Council observes that, under the provisions of the Court Fees Act, the cancellation of stamps must be effected by the court or office receiving the document to which a stamp has been affixed.

2. His Excellency in Council is not satisfied that the rules at present in force provide adequate security for the stamp revenue in the case of labels affixed to certified copies of papers which are frequently only imperfectly obliterated by the court issuing these documents.

3. In supersession, therefore, of existing orders on the subject, the Governor General in Council is pleased to direct that the court or office issuing copies, certificates, or other similar documents liable to stamp duty shall, before issue, cancel the labels affixed to them by punching out a portion of the label in such a manner as to remove neither the figure head, nor that part of the label upon which its value is expressed. As an additional precaution, the signature of the officer attesting the document, with the date, should be written across the label and upon the paper on either side of it, as is frequently done by persons signing stamped receipts.

ORDER.—Ordered, that the foregoing Resolution be forwarded to all Local Governments and Administrations for information and further orders, and that a copy be sent to the Registrar of the High Court, Calcutta.

A letter from the Secretary to the Government of Bombay, to the Government of India in the Public Works Department, No. 234—E. 1160, dated 2nd July 1875.

RESOLUTION.—In supersession of previous orders on the subject, the Governor General in Council is pleased to resolve that in future, without the previous sanction of the Governor General in Council, no addition shall be made to any salary paid from imperial funds, from provincial or local funds or from the income of Wards' Estates, or from any other funds administered by the Government or its officers as trustees. If such addition made from provincial or local funds has the effect of raising the pay of an officer above Rs. 5,000 a year, the sanction of Her Majesty's Secretary of State for India is necessary before the additional allowance can be drawn.

In like manner, the Governor General in Council resolves that any addition made to any pay chargeable to provincial funds which, if made from provincial funds, would require the sanction of the Government of India under paragraph 21 of the Resolution No. 3334, dated 24th December 1870, shall require such sanction if made from local funds.

And, without the previous sanction of the Local Government, no addition shall be made to any salary paid from provincial revenues fron the income of Wards' Estates or from any other funds administered by the Government or its officers as trustees.

ORDERED, that copies of the above Resolution be forwarded to the Departments of the Government of India, Local Governments and Administrations, Comptroller General, and Accountants General, and Deputy Accountants General in independent charge.

READ again the following papers :—

Letter to the Chief Commissioner, Central Provinces, No. 1422, dated 9th March 1875, directing that in calculating whether he is entitled to compensatory payment from the Military Department under the General Order of the Government of India in that Department, No. 1168, dated 10th December 1868, Major Vendor Gucht, a District Superintendent of Police in the Central Provinces on Rs. 600 a month, cannot be permitted to omit from the account the allowance of Rs. 50 a month which he receives from the Great Indian Peninsula Railway Company direct for Railway Police works.

Endorsement to the Home and Public Works Departments, forwarding a copy of the above letter "with the remark that it seems objectionable to permit District Superintendents of Police to receive extra pay for work connected with Railway Police, and specially to permit them to receive it from the Railway Companies direct, and with the request that the arrangement involving this direct payment may be reconsidered."

Circular letter from the Home Department to the several Local Governments and Administrations, Nos. 2—84—91, dated 20th April 1875, calling for a statement of all allowances received from Railway Companies by District Superintendents of Police for work connected with Railway Police.

READ also the following replies received from the several Local Governments and Administrations :—

Letters from the Government of Madras, Nos. 1156 and 1422, dated respectively 11th May and 25th June 1875 ; letter from the Government of Bengal, No. 1831, dated 17th May 1875 ; letter from the Government of the North-Western Provinces, No. 409 A, dated 2nd June 1875 ; letter from the Government of the Panjab, No. 1091, dated 6th May 1875, and letter from the Chief Commissioner of Mysore and Coorg, No. 1137—3, dated 11th May 1875, stating that no Superintendents of Police receive any allowance from Railway Companies direct.

Letter from the Chief Commissioner of the Central Provinces, No. 1859, dated 26th May 1875 ; letter from the Resident at Hyderabad, No. 276, dated 1st June 1875 ; and letter from the Government of Bombay, No. 3509, dated 21st June 1875, stating that 8 Superintendents in the Central Provinces and 2 in Hyderabad draw Rs. 50 each a month from the Great Indian Peninsula Railway Company direct ; and the Superintendent of Police, Bombay, Baroda and Central India Railway on Rs. 600 with Rs. 100 a month for travelling, receives while in Bombay a conveyance allowance of Rs. 5 a day from the Railway Company direct ; the Government sanction for this conveyance allowance is not however traceable.

RESOLUTION.—It appears from this correspondence that in the Central Provinces and Berar certain District Superintendents of police receive Rs. 50 each from the Great Indian Peninsula Railway Company for superintending the Police of the Railway, and that a conveyance allowance of Rs. 5 a day is paid direct by the Bombay, Baroda and Central India Company to the Superintendent of Police on this line while in Bombay. No such arrangement exists elsewhere.

2. The Governor General in Council considers it objectionable that Police Officers should receive any pay or allowance whatever direct from a Railway Company, and the Government of Bombay should now arrange with the Great Indian Peninsula Railway Company for the payment by this Company to the Administrations of the Central Provinces and Berar, respectively, of the amounts now paid direct to the Superintendents of Police under those Governments, and for the payment by the Bombay, Baroda and Central India Company to itself of a sufficient amount to cover the conveyance allowance in Bombay of the Superintendent of the Police on the Bombay, Baroda and Central India Railway while in Bombay.

3. The Government of Bombay and the Administrations of Berar and the Central Provinces should continue to each Superintendent, who now receives allowances from the Railway Company, a consolidated pay equal to that which he has hitherto received from the Government and from the Railway Company, but they should consider whether the pay of these offices should be continued on this scale after they are vacated by the present incumbents.

4. In future, no officer of Government should receive pay direct from any Railway Company without, in each case, the special sanction of the Government of India. It is a well understood principle that the Government does not allow its officers to take any pay or fees whatever from any other Government, or from any body or individual, unless the services of such officers are by special permission lent to such Government, body or individual.

ORDER.—Ordered, that a copy of the above be sent to the Home Department for information, to the Public Works Department for the issue of the necessary orders, to the Comptroller General and to the several *Accountants General, and Deputy Accountants General in independent charge, for information and guidance.

*Accountant General, British Burmah, and Deputy Accountant General, Assam, are excepted.

Ordered also, that a copy of the Resolution be sent to the several Local Governments and Administrations with special reference to paragraph 4.

I have considered in Council your Financial letter, dated the 31st December last, forwarding, with reference to my despatch dated the 8th October 1874, No. 512, copy of your Resolution of the 27th November 1873, prohibiting the remittance to England by private bills of money required for payments on the public service, and directing that all remittances of that nature shall be made through the Government of India.

2. I fully concur in the propriety of the rule which you have laid down, and as you are of opinion that remittances to the Solicitor to this office from the Remembrancer of Legal Affairs on account of appeals to the Privy Council on behalt of the Court of Wards come within the designation of remittances on the public account, I will not object to the necessary payments being made through this office.

3. Care must, however, be taken that any loss which may be entailed on Government by the adoption of this course of procedure must be made good out of the estate of the minor on whose behalf the Court of Wards may be acting.

Notification of the Government of India in this Department, No. 929, dated the 5th February 1874, ruling "that no public servant shall draw travelling allowance for a journey taken from his head-quarters to visit any place not more than five miles distant therefrom."

Resolution of the Government of India in this Department, No. 3079, dated the 16th May 1874, declaring that the ruling quoted above does not affect rule III in a notification of the Government of India in this Department, No. 1653, dated the 7th August 1868, regarding travelling allowance to chaplains.

Letter to the Acting Chief Secretary to the Government of Bombay, No. 1071, dated the 31st May 1875, exempting general duty karkoons in the older provinces of Bombay and tuppedars in Sind from the operation of the Notification No. 929 of the 5th February 1874.

Letter from the Acting Secretary to the Government of Bombay, No. 3682, dated the 30th June 1875, expressing concurrence in an opinion of the Accountant General of that Presidency that the Notification No. 929 of the 5th February 1874 applies only to officers "drawing mileage allowance and not to those in receipt of travelling allowance at daily rates."

Letter to ditto, No. 2887, dated the 26th August 1875, asking for a copy of the Accountant General's report alluded to in the abovementioned letter and of the papers of the case on which the report was made.

Letter from the Accountant General, Central Provinces, No. 1730 T, dated the 4th September 1875, enquiring, with reference to the Notification No. 929, dated the 5th February 1874, "whether an officer can draw halting allowance on his return journey for halting at a place not more than five miles distant therefrom."

Letter from the Acting Secretary to the Government of Bombay, No. 2915, dated the 11th September 1875, forwarding a copy of the papers asked for in the letter from this Department, No. 2915, dated the 11th September 1875.

RESOLUTION.—The objection to the grant of travelling allowance to an officer who does not go further than five miles from his head-quarters is that the journey is not long enough to entail any appreciable extra expense. As this objection applies with as much force to one form of travelling allowance as to another, the Hon'ble the President in Council regrets that he is unable to concur in the opinion of the Government of Bombay. The Government of India intended the Notification No. 929 of the 5th February 1874 to apply to travelling allowances of all kinds, with the exception, *first*, of those allowances which were exempted from its operation by the Resolution No. 3079 of the 16th May 1874 and the letter No. 1071 of the 31st May 1875, and, *secondly*, of permanent contract travelling allowances, *i. e.*, of travelling allowances which are drawn like salary, whether the officer receiving them travels or not.

2. His Honor in Council takes the opportunity at the same time to declare that the intention and the spirit of the rule contained in the Notification, No. 929 of the 5th February 1874, are opposed to the grant of halting allowances to an officer for a halt within five miles from his head-quarters, and desires that every Local Government and Administration will enforce the rule accordingly.

ORDER.—Ordered that the foregoing Resolution be communicated to the other Departments of the Government of India, to all Local Governments and Administrations, to the Comptroller General and Head Commissioner of Paper Currency, to the Director General of the Post Office of India, to the Mint Master, Calcutta, to all Accountants General, and to the Deputy Accountants General in independent charge.

ACCOUNTS.

No. 4361.

Simla, the 30th October 1875.

Read the undermentioned papers :—

Letter from Chief Commissioner of Oudh, to the Government of India, in the Public Works Department, No. 2451, dated 11th September 1874, requesting that the Province of Oudh may be relieved of the charge on account of the furlough allowance of Lieutenant-Colonel J. G. R. Forlong, R. E. C., late Officiating Chief Engineer of the Province, who has elected to draw his furlough allowance in India, and also of the charge on account of advance of three months' furlough pay taken in Bombay by Lieutenant-Colonel James, R. E.

Letter from the Government of Bengal, to the Government of India, in the Public Works Department, No. 948, dated 23rd February 1875, and enclosures, soliciting instructions as to how the furlough allowance of Lieutenant-Colonel J. G. R. Forlong, whose substantive appointment is in Bengal, and similar charges on account of furlough allowances of officers drawing their allowances in India, are to be adjusted.

RESOLUTION.—By the orders in Financial Resolution No. 1075, dated 12th July 1875, the absentee pay in England of an officer employed on an establishment paid from provincial funds is treated as a charge against the imperial revenues. The references submitted by the Chief Commissioner of Oudh, and the Government of Bengal, have given rise to the question whether, when an officer on furlough in England elects to draw his furlough pay in India, his furlough pay is to be debited to the imperial Government, or to the provincial Government to which the officer is attached. Strictly in such a case the provincial revenues should bear the charge; but it might be difficult in many cases to say which province of two or more in which the officer had served should bear the charge, and there would thus be trouble in adjusting the accounts provincially. On this consideration, and as the amount involved will probably be inconsiderable, the President in Council is pleased to rule that the absentee pay of any officer employed on a provincial fund establishment proceeding on furlough to England, if drawn in India, shall, as in the case of absentee pay in England, be treated as a charge of the imperial Government.

The absentee allowance of an officer of a provincial fund establishment who spends his leave in India will continue to be a provincial charge.

ORDERED, that this Resolution be distributed for information and guidance as follows :—

To the several Departments of the Government of India.

* Public Works Department's original papers returned; copies kept.

To the several Local Governments and Administrations.

To the Comptroller General and to the several Accountants General, and Deputy Accountants General in independent charge.

From the Acting Under-Secretary to the Government of Bombay, No. 4214, dated the 23rd July, 1875, soliciting a solution to a ruling of that Government "that when Inspectors of Police placed in charge of the duties of Superintendents and Assistant Superintendents of Police move out into the Districts and

With a view to remedy as far as possible any inconvenience which may be occasioned to parties and witnesses in Civil suits, owing to the great distance of the Head-quarters of some of the Munsiffs' Courts from the different parts of their jurisdiction, the following arrangements have been made with the approval of the Chief Commissioner for providing a system of Circuit Courts in the Nundydroog and Nagar Divisions, and they are hereby published for the information and guidance of the public and the Officers of the Government concerned; similar instructions with regard to the Courts of the Ashtagram Division having already been issued in Notification dated 9th March 1875, published at page 126 of the *Mysore Gazette* of the 13th idem.

Ordinarily, the judicial work of a Munsiff at a Circuit Court shall be confined within the limits above set forth, but this rule will not debar this Officer from disposing of any judicial work from any part of his jurisdiction at a Circuit Court, when the parties concerned expressly desire it, or when the urgency of any matter requires, in the interests of justice, immediate action. It is hoped that the Munsiffs will not, except on very good and satisfactory grounds, depart from the rule, nor must they, under any circumstances, so exercise their discretion as to interfere with the due disposal of the whole of the work of that particular portion of their jurisdiction for which the Circuit Court is specially intended.

Posting of Cases.

4. In posting regular and miscellaneous cases for hearing, very great care should be had to the foregoing rules. The whole judicial work of each Sub-Division should be carefully distributed for disposal at head-quarters and on circuits, with reference to the time during which the Court is held at the different places, the ordinary limits of the area for each circuit and the convenience of the parties and witnesses concerned. On the one hand, the disposal of cases should not be delayed till the time appointed for circuits, if such delay will entail real hardship on the parties seeking relief; while on the other hand every endeavour should be made to save defendants and witnesses the inconvenience of travelling long distances and also to avoid the expenses of suits being unduly swelled owing to the large amount of batta which have to be paid to witnesses from a distance.

Munsiffs must remember that, especially in suits of small values, distance and expense must be felt as a great hardship by parties.

Duration of Circuits.

5. The length of time during which a circuit should be held must depend upon the actual work for disposal. It must ordinarily extend to one month, and cases, &c., should be posted on this calculation. The actual state of the work at any circuit-sitting will justify a Munsiff in increasing or decreasing the length of such sitting by a period not exceeding one week, making a due report of the circumstance for the information of the Commissioner of the Division through the Deputy Commissioner.

Publication of Notices of Circuits.

6. Every Munsiff should on each occasion of his intended holding of a Circuit Court, cause to be posted conspicuously in his own head-quarters and Circuit Court-houses (at least one month before opening of such Circuit Court) a notice in Kanarese, specifying the date on which the Circuit Court would be opened. A copy of such notice should also be posted in the Deputy Commissioner's Court, and in the Taluk Cutcheries within his jurisdiction. The cause lists posted up in his Court (whether at head-quarters or on circuit) should, in addition to the usual information, specify the places where the causes will come on for hearing.

Circular Order No. 5, *dated* 16*th June* 1875.

From some cases which have recently come before the Judicial Commissioner, it is clear that the Amildars do not understand their duties as Magistrates in connection with a Police investigation and their position as to the Police. The following instructions are therefore issued for their guidance:—

1. The Amildar, when on the spot, is responsible for the proper performance of their duties by all Police Officers, whatever their rank, and he is bound to check any irregularity or misconduct, if necessary reporting it to the District Magistrate.

2. He should not interfere actively in the course of the Police proceedings or with the detective measures, except to enforce regularity and to repress abuse.

3. He should be most careful to prevent any thing like illtreatment to a prisoner, and, *as a rule*, should insist on every prisoner being sent in to the Magistrate having jurisdiction to deal with the case as soon as possible after arrest, and within 24 hours.

4. The Amildar is competent, under Section 124, Code of Criminal Procedure, to pass a *special* order authorizing a Police Officer to detain an accused person in custody for a longer period, but this power should not be lightly exercised. It is not because a Police Officer reports that he is likely to obtain some further clue in the case either to the detection of the other offenders or to the recovery of stolen property, that an Amildar should allow a special detention of the accused, but, before he exercises the power, he should require the Police Officer to satisfy him that there are some *good* grounds, not vague and indefinite hopes, of extracting some information out of the accused person under arrest, but something substantial which would justify such detention without fear of any suspicion of illtreatment or foul play.

5. The Amildar should recollect that the law is stringent on the subject, for, unless a Police Officer *obtains* a special order within 24 hours, he is bound to send the accused to the Magistrate having jurisdiction, if he believes that the accusation is well founded. The Police Officer may have applied for

6. If the Amildar considers that there are special reasons for passing a special order for detention of the accused person, he is bound *at once* to forward to the Magistrate of the District, or Division of the District, copy of his order and *his reasons* for making it.

7. The term for which detention is allowed should be moderate, and should be calculated according to the object which it is expected to attain. It should be as short as possible, and if the Amildar is on the spot, he should personally see that the prisoner is properly fed, and that he is well cared for, and is not illtreated beyond what is necessary to prevent his escape.

8. An Amildar is, under Section 122, competent to record a confession, but when a prisoner is brought to him for that purpose, he should first of all exclude all Police Officers, putting the accused in charge, temporarily, of his own peons. He should take every step to satisfy himself that the confession is voluntarily made. Every word should be *accurately* recorded, including the questions put by the Amildar to ascertain correctly the meaning of words used by the prisoner, or to obtain an intelligible narrative. The statement recorded should be read over to the prisoner, and he should be at liberty to explain or add to his answers; and he should then be asked if what has been recorded is the truth. He should next sign or mark the statement, and the Amildar should then affix the certificate required by Section 122 and sign it himself.

9. An Amildar should be especially careful in taking a confession given after the accused has been detained by the Police under a special order, and should repeatedly ask the accused if the statement is voluntarily made, for confessions made under such circumstances are not readily believed by those who have to try the case.

10. In issuing these instructions, the Judicial Commissioner wishes to impress on both Amildars and Police Officers that it is the duty of both to co-operate cordially in the interest of the public service, but while an Amildar should not officiously interfere with a Police investigation, he is bound to repress irregular conduct that may come to his notice, as well as to see that the procedure laid down for the Police is duly observed, and, as a Magistrate and Judicial Officer, he must exercise an independent judgment on the matters noticed, and not allow himself to be a tool in sanctioning illegal practices.

The 29th June 1875.

Notice is hereby given that, in accordance with the rules for the destruction of old Judicial records, all the documents, exhibits, accounts, &c., filed for reference or otherwise by parties to suits from the year 1853 to 1865 in the Lower Courts, the proceedings of which have been on appeal forwarded to this Court and which are now in this Office, will be destroyed on the 1st October 1875.

Parties desirous of receiving back any documents of value which they may have filed should apply to the Head Sheristadar in person or by an authorized agent before the date specified above, describing the documents required and the record in which they have been filed.

The 30th June 1875.

Circular Order No. 5, *dated* 16*th June* 1875.

From some cases which have recently come before the Judicial Commissioner, it is clear that the Amildars do not understand their duties as Magistrates in connection with a Police investigation and their position as to the Police. The following instructions are therefore issued for their guidance :—

1. The Amildar, when on the spot, is responsible for the proper performance of their duties by all Police Officers, whatever their rank, and he is bound to check any irregularity or misconduct, if necessary reporting it to the District Magistrate.

2. He should not interfere actively in the course of the Police proceedings or with the detective measures, except to enforce regularity and to repress abuse.

3. He should be most careful to prevent any thing like illtreatment to a prisoner, and, *as a rule*, should insist on every prisoner being sent in to the Magistrate having jurisdiction to deal with the case as soon as possible after arrest, and within 24 hours.

4. The Amildar is competent, under Section 124, Code of Criminal Procedure, to pass a *special* order authorizing a Police Officer to detain an accused person in custody for a longer period, but this power should not be lightly exercised. It is not because a Police Officer reports that he is likely to obtain some further clue in the case either to the detection of the other offenders or to the recovery of stolen property, that an Amildar should allow a special detention of the accused, but, before he exercises the power, he should require the Police Officer to satisfy him that there are some *good* grounds, not vague and indefinite hopes, of extracting some information out of the accused person under arrest, but something substantial which would justify such detention without fear of any suspicion of illtreatment or foul play.

5. The Amildar should recollect that the law is stringent on the subject, for, unless a Police Officer *obtains* a special order within 24 hours, he is bound to send the accused to the Magistrate having jurisdiction, if he believes that the accusation is well founded. The Police Officer may have applied for the special order, but if he has not obtained it within 24 hours from the arrest, he must forward the accused person.

6. If the Amildar considers that there are special reasons for passing a special order for detention of the accused person, he is bound *at once* to forward to the Magistrate of the District, or Division of the District, copy of his order and *his reasons* for making it.

7. The term for which detention is allowed should be moderate, and should be calculated according to the object which it is expected to attain. It should be as short as possible, and if the Amildar is on the spot, he should personally see that the prisoner is properly fed, and that he is well cared for, and is not illtreated beyond what is necessary to prevent his escape.

8. An Amildar is, under Section 122, competent to record a confession, but when a prisoner is brought to him for that purpose, he should first of all exclude all Police Officers, putting the accused in charge, temporarily, of his own peons. He should take every step to satisfy himself that the confession is voluntarily made. Every word should be *accurately* recorded, including the questions put by the Amildar to ascertain correctly the meaning of words used by the prisoner, or to obtain an intelligible narrative. The statement recorded should be read over to the prisoner, and he should be at liberty to explain or add to his answers; and he should then be asked if what has been recorded is the truth. He should next sign or mark the statement, and the Amildar should then affix the certificate required by Section 122 and sign it himself.

9. An Amildar should be especially careful in taking a confession given after the accused has been detained by the Police under a special order, and should repeatedly ask the accused if the statement is voluntarily made, for confessions made under such circumstances are not readily believed by those who have to try the case.

10. In issuing these instructions, the Judicial Commissioner wishes to impress on both Amildars and Police Officers that it is the duty of both to co-operate cordially in the interest of the public service, but while an Amildar should not officiously interfere with a Police investigation, he is bound to repress irregular conduct that may come to his notice, as well as to see that the procedure laid down for the Police is duly observed, and, as a Magistrate and Judicial Officer, he must exercise an independent judgment on the matters noticed, and not allow himself to be a tool in sanctioning illegal practices.

The 29th June 1875.

Notice is hereby given that, in accordance with the rules for the destruction of old Judicial records, all the documents, exhibits, accounts, &c., filed for reference or otherwise by parties to suits from the year 1853 to 1865 in the Lower Courts, the proceedings of which have been on appeal forwarded to this Court and which are now in this Office, will be destroyed on the 1st October 1875.

Parties desirous of receiving back any documents of value which they may have filed should apply to the Head Sheristadar in person or by an authorized agent before the date specified above, describing the documents required and the record in which they have been filed.

The 30th June 1875.

INSTRUCTIONS REGARDING SEARCH WARRANTS.

Circular No. 1526—78, *dated 3rd July* 1875.

The law attaches so much importance to the search of houses either with or without warrant, that under Chapter XXVII no officer below the rank of an officer in charge of a Police station should ordinarily conduct a search, and if he, or any other *competent* officer is unable to do so *in person*, a subordinate officer can only do so by an order *in writing* from a superior specifying *the property to be searched for* and *the house or premises to be searched* (Section 379, Criminal Procedure Code).

2. In this Province a Jamedar may be held to be an officer in charge of a Police station, the substations attached to his station being held to be part of it, and though under Section 136 of the Criminal Procedure Code, a Daffedar (or during the absence or illness of the latter) a Lance Daffedar could exercise the same powers, the last words of the Section clearly prohibit their being exercised by a mere peon.

3 It is always desirable however that search of premises be conducted *personally* by the most responsible Police Officer within reach.

4. In all reports of searches for property, the name and rank of the officer *personally* conducting them should be stated, and if he be below the rank of Jamedar, explanation should be given why an officer of that, or of higher rank was not available for the duty.

The 7th July 1875.

Inspector Dádá Rao of the Kunigal Taluk is granted one month's privilege leave from such date as he may avail himself of it.

The 8th July 1875.

Namkal Rao, Court Inspector, Chitaldroog, is granted seven days' privilege leave from such date as he may avail himself of it.

OFFICE OF THE CURATOR, MYSORE GOVERNMENT LIBRARY,
BANGALORE, 1*st July* 1875.

SEASON REPORTS FOR THE MONTH OF JULY 1875.

Kolar District.

Season.—There was a change in the weather towards the close of the month, the high winds which kept back the rain having greatly abated. The average rainfall during the month was only 75 cents.

Lands.—Lands assessed at Rs. 3,565-6-9 were newly taken up for cultivation and no lands were relinquished during the month.

Crops.—Ragi, ballar, dál and paddy were sown during the month, and "Vaisak" paddy was harvested in a few places.

The standing crops are not in a thriving condition in any of the Taluks of the District, and they are expected to be a total failure in the Taluks of Kolar, Chikballapur and Shrinivaspur, where they are withering from want of rain at the proper season.

Health.—Fever and ague still continue to prevail in the Taluks of Mulbagal, Sidlagatta, Gudibanda and Shrinivaspur. The particulars of deaths as compared with the previous month are as follows :—

	June 1875.	July 1875.		June 1875.	July 1875.

Cattle.—The casualties among cattle were 2,650 against 1,693 in June 1875 as per following particulars :—

Price.—There is a tendency to rise in the selling price of the principal food grains as compared with the previous month.

P. N. PUBNAIYA,
For Dy. Commr.

Mysore District.

Rain.—The rain-fall for this period of the year was very deficient being only 1 inch 72½ cents, as compared with 3 inches 21 cents, the quantity registered in the corresponding month of last year. At Húnsúr however it reached that quantity.

Crops.—Owing to the want of rain the jola crop, which is the staple crop of the country, has proved a failure chiefly in the Mysore, Mandya and Chamrajnagar Taluks. Cotton in the Nanjangúd Taluk is being picked. Waste lands of the value of Rs. 1,633—5—4 were taken up for cultivation.

Health.—An outbreak of cholera took place at Gundlupet, being imported, it is thought, by travellers from Satyamangiam. Sixteen fatal cases were reported. The casualties from all causes reached 703 against 598 in the previous month.

Cattle.—Murrain among cattle is still prevalent in the Ashtagram, Periyapatna, Yedatore and Heggaddevankote Taluks. The losses owing to this and other diseases reached 1 944 head, inclusive of 48 carried off by wild beasts.

Prices.—The price of food grains has risen : 1st sort rice is sold at 10⅓, 2nd sort rice at 11¼, ragi at 25, horse-gram at 21, green-gram at 14¼, black-gram at 11¾ and dál at 10 seers for the rupee.

W. HILL,
Dy. Commr.

Hassan District.

Weather.—No rain fell at the head-quarters of Nagamangala, and the fall at those of Channaraypatna, Attikuppa and Harnhalli was very light: hardly any thing to speak of, considering the season of the year. Altogether, the rain gauged throughout the District fell short of that registered in the corresponding month of last year, as will be noticed from the subjoined comparative table:—

		July 1875.		July 1874.	
		I.	C.	I.	C.

Attikuppa	..	0	75	2	40
Nagamangala	..	0	0	2	58
Harnhalli	..	0	43	2	52

Lands.—Lands assessed at Rs. 1,342—1—3 were taken up; while none were resigned.

Crops.—The seeds sown during the month were paddy for the Kartika crop, ragi, horse gram, dál, chilli and castor. The prospect of the crops both wet and dry is good.

Market.—Under this head may be chiefly noticed the considerable fall in the price of ragi in the Alur market. In the month of June this staple article of food was sold at 31 seers, while in the month under report it was 44 seers per rupee A statement of the rates on this, and the following articles of consumption as compared with last year is given below:—

	July 1875. Seers per Rupee.	July 1874. Seers per Rupee.		July 1875. Seers per Rupee.	July 1874. Seers per Rupee.
1st Sort rice ..	14½	14¾	Ragi ..	44	37½
2nd „ ..	16	16¾	Horse gram ..	23	20

Health.—The public health was generally good, though colds, fever and small-pox prevailed in the Taluks of Hassan, Manjarabad and Narsipur. There were 574 deaths from all causes (of which 27 were from small-pox) against 399 in the previous month, or 557 in the month of July last year.

Cattle.—Cattle disease is reported to have prevailed in all the taluks of this District, save Manjarabad and Arkalgúd; and the loss has, unfortunately, been very great during the month under report, being 3,557 head in all, (including 37 killed by wild beasts) against 2,935 in the preceding month, or 2,246 in the month of July 1874.

E. SHAW,
Offg. Dy. Commr.

Shimoga District.

Rain.—The total quantity of rain gauged in the District during the month under report was 187 inches, 84 cents, of which the greater quantity fell in Ságar, Nagar and Kavaledurga as per margin.

	Inches.	Cents.
Ságar	25	30
Nagar	76	44¼
Kavaledurga	41	32¾

Crops.—The crops under growth are reported to be in good condition. Ragi, cholam, togari, avare, and korasani were sown in the Channagiri Taluk. Supari reported to be attacked by koleroga in the Kavaledurga, Sagar and Nagar Taluks, and great loss has been caused by it.

Health.—Generally good. Fever and ague is prevalent throughout the District, and 5 cases of death from small-pox are reported. The total number of deaths during the month was 525 or 127 more than the month previous, and the total number of births registered was 526 or 128 more than the last month.

Cattle.—The casualties among cattle from murrain and other diseases were 1784 and by wild beasts 85.

Kadur District.

The fall of rain throughout the District, except in Banavar, Tarikere and Chikmagalur, has been fair, and the tanks have received small supplies of water.

The following table furnishes readings of the thermometer and rainfall recorded at the Chikmagalur observatory, for the past and present month, as contrasted with the month of July 1874:—

June 1875—*Thermometer*	at 9—30 A. M.	75·11	At 3—30 P. M.	76·17	*Rain*	3	inches	34¾	cents.
July 1875	,,	,,	73·	,,	73·22	,,	5	,,	57	,,
July 1874	,,	,,	70·20	,,	70·20	,,	8	,,	1	,,

Crops.—Ragi, avare, castor-oil, menthya, dál, chillies and other seeds were sown in the Taluks of Banavar, Tarikere and Chikmagalur. The young wet and dry crops raised from seeds recently sown in all the Taluks are doing well. The supari crop in some parts of the Lakvalli and Koppa Taluks have been damaged by "Kole Roga."

Health.—The health of the District is indifferent though the bill of mortality is not high. Fever and ague prevail in all the Taluks to a more or less extent. The number of deaths reported from all causes is 349 in this, against 226 last month, and 320 in July 1874.

Cattle.—The condition of live stock, generally, is on the whole good. Murrain, of the "dodroga," and "kalbavi jvara" types is still prevalent in the Taluks of Lakvalli, Banavar and Tarikere. In the Taluks of Lakvalli, and Koppa, the mortality from wild beasts has been heavy.

The total mortality from all causes amounts to 943 in this, against 1,142 last month and 2,205 in July 1874.

P. KRISHNA RAO,
Offg. Dy. Commr.

Chitaldroog District.

Rain.—From the reports received from the taluks, rain appears to have fallen in all parts of the District, but more is needed. The direction of the wind was south-west, and the average reading of the thermometer at head-quarters was 74·9 at 9-30 A. M., and 77·5 at 3-30 P. M.

Crops.—The wet crops are reported to be in good condition. The seeds sown were ragi, javari, horse-gram, gingelly, togari and green-gram. Lands paying an assessment of Rs. 2,178—12—0 were taken up for cultivation.

Health.—The general health of the population owing to the great amount of fever prevailing, cannot be said to be good; deaths from this and other diseases are reported to be 496, against 405 reported last month.

Cattle.—The number of cattle lost during the month from murrain and other diseases is 1470.

Notice is hereby given that three logs of unreserved wood, being a portion of timber bought by a man who called himself Ghaus Sahib of Sivaga village in the Molkalmuru Taluk of Chitaldroog District, in January 1874, are now lying at the Channagiri Depôt in the Shimoga District, Nagar Division. III. Petition from one Elizabeth Ayah applying for a piece of ground in lieu of that previously granted to her in the year 1860 by Major Haines, the then Superintendent of the Bangalore District.

INAM DEPARTMENT.

NOTIFICATIONS.

The 8th September 1875.

No. 10.

It is hereby notified, for general information, that the investigation of inams in the marginally noted hoblis of the Magadi Taluk, which are adjacent to the Nelamangala Taluk, will be commenced on the 1st proximo by Mr. Syed Nasiruddin, Assistant Superintendent, at the kasba of the latter taluk.

1. Gudemarnhalli.
2. Solur.
3. Tavarekere.

All parties interested in the said inams are directed to attend the office of the Assistant Superintendent at Nelamangala, either in person or by Vakil, in due time, to prosecute their claims; in default their inams will, in the first instance, be attached, and afterwards finally resumed.

The 18th August 1875.

No. 9.

The subjoined statement from the Inam Settlement Office shews the extent and other particulars of inams, the holders of which have declined the enfranchisement offered for their acceptance under Land Inam Rule No. 6, Clause C.

2. The reversionary right of Government to this description of property not having been compromised in the Inam Superintendent's settlement, its holders cannot exercise the right of alienation by gift, sale, bequest, mortgage or otherwise.

3. On the death of the parties mentioned in the list, the Amildars should report the lapse to the Inam Superintendent for orders, holding their inams under sequestration in the meantime, and should state in the Arzi whether there are any of the heirs of the description ("Rule VI,") mentioned in Clause B of the same rule.

The report on the lapses should invariably be accompanied with a genealogical tree of the family, and a brief but succinct account of the nature and the validity of adoption, if any claim is set up on that score.

4. The Commissioners of Divisions are requested to direct their subordinate Courts not to entertain civil suits involving unenfranchised inams after the publication in the *Mysore Gazette* of the names of the inamdars who have declined to accept the terms of enfranchisement offered to them, and the Registrar General is also requested to instruct the District and Sub-Registrars to reject invariably the registration of all documents in support of alienation of unenfranchised inams.

5. The fact of enfranchisement or otherwise can be ascertained from the Inam Superintendent's title-deeds, and in their absence by a reference to the copy of the Inam Register in the Amildar's Cutcherry.

POLICE DEPARTMENT.

Circular No. 2240—118, *dated* 17*th September* 1875.

Bills for cart hire should in future be drawn in Contingent Abstract and charged in the "Detail Contingent" Bill, under Sub-head "Office Contingencies" agreeably to para 13 of the Comptroller General's Circular No. 175, dated 19th May 1874, to which attention is directed.

Circular Order No. 2268—121, *dated* 18*th September* 1875.

All Inspectors and Sub-Inspectors of Police of the Mysore Province will, without delay, provide themselves with Service Register books, and entries should be made in them and attested by District Officers or Police Assistants in the usual course.

Circular No. 2267—120, *dated* 18*th September* 1875.

The following instructions are issued for the correct filling in of the monthly *Crime* return.

2. Columns 6 and 7 of the Return should contain cases in which the Police have taken action during the month, whether in those reported during the month or in those that are before the Police at the close of the previous month.

3. All cases, not fully investigated and remaining, on the file of the Police at the end of the month will be shewn under columns 19 and 20.

4. The figures under columns 6 and 7 should not be included in the total sum under column 18, the heading of which should shew the total of the figures under columns 8 to 14 and 16 and 17.

5. The figures shewn in columns 8 to 14 will shew the details of disposal of all cases pending before the Magistracy from previous months as well as all cases sent up by the Police during the month for trial.

6. Columns 16 and 17 will shew the number of cases disposed of by Higher Court during the month, and column 23 will shew the number of cases that will be pending before the same Court at the close of the month. Thus, these three columns will give all the information required.

7. The figures shewn in column 15 should as a rule be omitted when the figures under columns 8 to 14 and 16 and 17 are added together to fill in column 18.

8. Care should be taken in filling in columns 9 to 14. For instance there may be one case involving 6 persons, of these 1 may have escaped, another discharged, a third otherwise released, one acquitted, and 2 convicted. Thus it will be seen that there is in fact only one case and a number of persons involved and variously disposed of. This should be noticed and care should be taken not to enter the same case over again in the several sub-headings "Cases." Should this be neglected, the total number of cases shewn under column 18 will be greatly exceeded and lead to confusion. In such cases an explanatory note should invariably be made in the remarks under column 33.

9. Again, as before supposed, 1 accused escaped, and though the other persons involved have been disposed of, the case should be considered as still to be disposed of till the escaped person is apprehended and brought to justice. The case should therefore be shewn in column 21 and an explanatory note being entered in column 33.

10. All cases investigated by the Police must be shewn in columns 6 and 7. Any case ordered by the Magistrate to be struck off as false should be shewn in column 8.

11. All cases pending before the Police, Magistracy and Higher Court at the close of the month will be shewn in the Return for the month succeeding in the appropriate columns 2 and 3 and never under 6 and 7, as the former have no connection with the latter.

12. In column 9 the word transferred means not only those cases that have been transferred to other Districts, but also those cases disposed of in the District and which are simply transferred from one Section of the I. P. C. to another.

141
Q69

13. For example a person may be charged by the Police with grievous hurt or robbery and the case is therefore shewn under that head in the return of the month. In the following month it is adjudicated and the prisoner convicted of mere assault or causing hurt.

14. Such cases will be transferred to the heads under which they have been finally disposed of.

15. In all such cases and also in cases when prisoners have died or escaped, an explanatory note should be given in column 33 against the line in which it is shewn.

"By Order,"
E. D. GOMPERTZ,
Dy. Inspector General of Police.

SEASON REPORTS FOR THE MONTH OF AUGUST 1875.

Hassan District.

Weather.—The weather was fair with occasional light rain. There was no rain at all at the head-quarters of the taluks of Attikuppa and Harnhalli, while the fall at Channaraypatna and Narsipur was insignificant. A statement of the rain registered at the District and Taluk head-quarters during the month compared with the corresponding month of last year, is annexed, from which it will be seen that with the exception of two taluks, Attikuppa and Arkalgúd, the quantity gauged in August 1875 was less than in the same month of 1874; this is especially noticeable in the taluks of Belur and Manjarabad.

Lands.—Lands assessed at Rs. 1,017—4—8 were taken up for cultivation and none were resigned during the month.

Crops.—The seeds sown were horse-gram, green and black gram in the taluk of Hassan, and chilly in that of Harnhalli. Favorable mention has been made in the taluk reports of all the crops, both wet and dry.

Market.—The prices of 1st and 2nd sort rice in the Alur market continued stationary, while there was a slight rise in the price of ragi, and a fall in that of horse-gram. A statement shewing the rates at which the above articles of consumption were sold during the month compared with that of the preceding one and the month of August 1874, is subjoined :—

Articles.	Rate per rupee. July 1875.	Aug. 1875.	Aug. 1874.

Ragi .. seers	44	42½	37½
Horse gram ..	23	25	16

Health.—The public health was very good. The number of deaths amounted to 399 in all (4 from small-pox, 17 from dysentery, and 378 from fever and other causes) against 574 in the preceding month, or 494 in the month of August 1874.

Cattle.—It is satisfactory to note that the loss of cattle has not been as extensive as in the previous month, the number that died being 2,442 (including 12 killed by wild beasts) against 3,557 in July 1875. This mortality is, however, greater than that in the corresponding month (August) of last year when the loss amounted to 1580 head only.

A. SRINIVASAIENGAR,
For Offg. Dy. Commr.

Kadur District.

The fall of rain throughout the District has been scanty, especially in the taluks of Banavar, Tarikere and Chikmagalur, and more rain is very much needed.

The following table furnishes readings of the thermometer and rain-fall recorded at the Chikmagalur observatory for the past and present month as contrasted with the month of August 1874.

July 1875—*Thermometer* at 9—30 A. M.	73·0	At 3—30 P. M.	73·22	*Rain* 5	inches	57	cents.
August 1875 ,, ,,	73·7	,,	75·4	,,	1	24	
August 1874 ,, ,,	72·74	,,	74·3	,,	1	99	

Crops.—Standing crops are drying for want of rain in the Maidan, and doing but indifferently well in the Malnad taluks. Supari has been damaged by "Kole Roga" in the taluks of Lakvalli and Koppa. Sugar-cane, black and green gram in the Banavar, koriander and green-gram in the Tarikere and gidragi, vully, menthya and wheat in the Chikmagalur Taluks have been harvested.

Health.—The health of the District is indifferent. "Fever and ague" prevail in all the taluks except Tarikere.

The number of deaths reported from all causes is 311 in this, against 349 last month, and 319 in August 1874.

Cattle.—The condition of live-stock generally is on the whole good. Murrain of the "dod roga" and "kal bayi jvara types" still prevails in all the taluks except Koppa. In the taluks of Lakvalli and Koppa the mortality from wild beasts has been heavy.

The total mortality from all causes amounts to 625 in this, against 943 last month, and 1,244 in August 1874.

MAHOMED SALIHA,
For Dy. Commr.

Chitaldroog District.

Rain.—There were slight showers of rain in all the taluks of the District, except Hiriyur, and the total fall gauged is 9 inches and 52¼ cents. High S. W. winds prevailed. The average reading of the thermometer was 75·1 at 9—30 A. M. and 77·8 at 3—30 P. M. None of the tanks received water.

Crops.—In some parts the crops are reported to be in good condition, and in others they are fading. The seeds sown were horse-gram, ragi, javari and sáve.

Lands paying an assessment of Rs. 1,800 were taken up for cultivation during the month under report.

Fever and ague prevailed generally throughout the District, and the casualties from this and other diseases were as follows:—

Fever and ague 326, small-pox 18, other causes 107, dysentery 37, accident 4, snake bite 2, total 494.

The number of cattle reported to have died from murrain and other diseases is 1,813, against 1,470 reported in the month previous.

The prices of articles of consumption have arisen owing to the failure of the rains.
